

FibreLight

Super-scalable connectivity for growing businesses

Our full fibre broadband solution is a business-grade, gigabit capable service. FibreLight is ideal for SMEs looking to benefit from the reliability of FTTP connectivity and cost-effective, fully-symmetrical speeds. With the added ability to increase bandwidth as your business requirements change, it's a connectivity option that truly future-proofs your organisation.

Why FibreLight vs your current FTTP provider

Easy transfer: You can switch to us with no disruption.

Fast install: No waiting around, we can have you up and running in as little as 10 days.

Price: Faster Britain networks provide the best value in the marketplace, delivering outstanding service at an exceptional price.

Symmetrical: Identical upload and download speeds (all the way up to 1Gbps). Pick the speed you need. Want more speed? Take a look at our FibreBright package.

Low contention: FibreLight is a low contention solution that provides the reliability of a Leased Line without having to make the jump into the next price bracket.
